Algorithm Interview Practice for Junior Developers

The Binary Search Algorithm

The Merge Sort Algorithm

Jun 27, 2025

Sayed Nafisur Rahman Alif

has successfully completed the online, non-credit Specialization

JavaScript Algorithms

Learners have learned how to implement key JavaScript algorithms, including Binary Search and Merge Sort, and developed problem-solving skills through coding challenges. They have gained practical experience in applying algorithmic thinking to solve real-world programming tasks, preparing them for technical roles in software development.

A handwritten signature in black ink that reads "Per Harald Borgen".

Per Harald Borgen
CEO at Scrimba

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
